WORK EXPERIENCE

Software Engineer

Intern, StateFarm 2020-2021

- Developed a Badging System to streamline the employee identification process.
- Collaborated with team members to gather requirements, design the system, and implement the features.
- Utilized technologies such as React.JS, Node.JS, MongoDB

IT practitioners

Solex 2021-2022

- Design, develop, and implement technology solutions to address business challenges and improve efficiency.
- Install and configure hardware, software, and network systems, ensuring they are secure and compatible with existing infrastructure.
- Conduct regular maintenance and upgrades to ensure optimal performance and security of IT systems.

Web Developer

Alrowad Law 2022

- Design, develop, and implement technology solutions to address business challenges and improve efficiency.
- Install and configure hardware, software, and network systems, ensuring they are secure and compatible with existing infrastructure.
- Conduct regular maintenance and upgrades to ensure optimal performance and security of IT systems.

Software Engineer and Full Stack Developer

Intelligent Digitization Ventures 2022 - Present

- Developing and maintaining web applications using React.js and other related technologies.
- Collaborating with cross-functional teams including designers, product managers, and other developers to create high-quality products.
- Implementing responsive design and ensuring cross-browser compatibility.
- Participating in code reviews and providing constructive feedback to other developers.

PROJECTS

- SmartTalk: Developed a mobile application designed to help users learn languages through gamified learning techniques.
- To-Do Mobile App: Built and designed a mobile application using React Native, allowing users to create and manage their tasks efficiently.
- Personal Web: Developed and designed a personal website using HTML, CSS, and JavaScript, showcasing personal achievements, skills, and portfolio.
